

WRIGHTFIELD

BETTER BY DESIGN

Structural Platforms, Mezzanines and Architectural EN1090

Wrightfield benefits from over 25 years' experience in the specialist metal fabrication industry, providing nationwide secondary steelwork services to a broad range of industries. As an accredited company, we are able to design, manufacture (including welding) and install structural work in mild and stainless steel up to and including Execution Class 2. Enabling these products to be CE marked in full compliance with legislation governing structural steelwork.

With a team of in-house skilled welders and extensive lifting facilities, we offer customers a one-stop structural fabrication solution for projects such as canopies, staircases, balustrades and all secondary steelwork.
